About Lamaze International

Forty years of research and learning from women's experience of normal, natural birth have provided evidence that has gradually but dramatically changed Lamaze from being a method for giving birth, to a philosophy that provides the foundation and direction for women as they prepare to give birth and become mothers. "Breathing" is no longer the hallmark of Lamaze. The Lamaze Philosophy of Birth is at the heart of Lamaze education and has been for nearly a decade, the driving force for significant changes in Lamaze preparation for childbirth.

Today Lamaze affirms the normalcy of birth, acknowledges women's inherent ability to birth their babies and promotes the Lamaze Healthy Birth Practices. The Lamaze Certified Childbirth Educator promotes, supports and protects every woman's right to give birth, confident in her own ability, free to find comfort in a wide variety of ways, and supported by her family and all members of the health care team.

The Lamaze Childbirth Educator Competencies:

- ❖ Competency 1: Promotes the childbearing experience as a normal, natural, and healthy process which profoundly affects women and their families.
- ❖ Competency 2: Assists women and their families to discover and to use strategies to facilitate normal, natural, and healthy pregnancy, birth, breast-feeding, and early parenting.
- ❖ Competency 3: Helps women and their families to understand how complications and interventions influence the normal course of pregnancy, birth, breastfeeding and early postpartum.
- ❖ Competency 4: Provides information and support that encourages attachment between babies and their families.
- ❖ Competency 5: Assists women and their families to make informed decisions for childbearing.
- ❖ Competency 6: Acts as an advocate to promote, support, and protect natural, safe and healthy birth.
- ❖ Competency 7: Designs, teaches, and evaluates a course in Lamaze preparation that increases a woman's confidence and ability to give birth
